LIVE CATTLE, JUNE 2018 CONTRACT

Contract: June 2018

Exchange: GLOBEX

Symbol: LCM18

Expiration Date: 29/06/2018

Notice Date: 04/06/2018

Multiplier: 400

With the last update, we did well until March. After March, we have seen a continuation of the down push, above all in the second half of the month. We said to take half of the profits around mid-February (high made on February 20) and to re-buy at the end of February. We said to use a stop under 120; we can “*appreciate*” the down acceleration once Live Cattle moved under our Key Level:

The forecast has been correct until March. The last down acceleration gave us a loss, but **we protected the position with a stop under 120**, and now **this drop can be a new buy opportunity**, this is what our forecast model suggests.

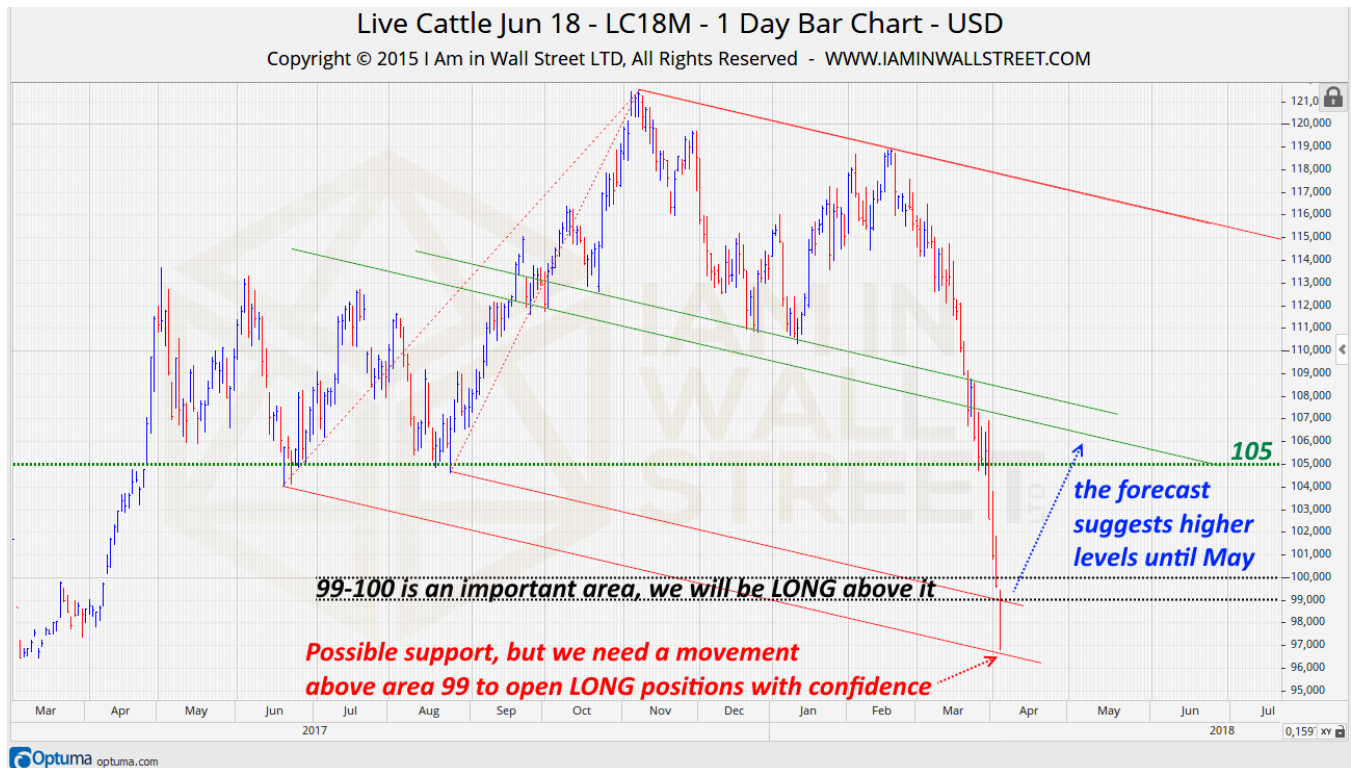

First, we have to trade the June Contract, because the April contract is about to expire.

Then, let us see the main forecast; if you read the 2018 Live Cattle Bulletin, you see I wrote that *“in March there is a change in trend in the last days of the month; the study suggests a Low, a new buy opportunity, or a general continuation of the uptrend”*. Well, **we are seeing a Low in the first days of April, and now we should see an imminent up push, this is what the forecast says! The Low should be imminent.**

If we see the expected new up push, we will try to follow it until May. In May, we need to see where Live Cattle will be because then we need to close the LONG position or protect it with a stop under important supports. If necessary, I will send you an update.

About the price map of the June Contract:

Here is a chart that shows possible important levels that we must monitor:

To open the LONG position, I use the Key Price in area 99-100. I will use it to open LONG positions above it with a stop under it, always.

Other intermediate levels: 105 and 110.300.

Summing up, we are expecting an imminent Low after the breakout under 120 of the April Contract. We wait for confirmations above important levels first, and then we will be ready to trade with intelligent stops, opening LONG

positions. The plan is to keep the LONG position until May. Area 99-100 of the July Contract is the Key, we will be always LONG above it and FLAT under it.

Remaining Update appointments:

- May 30, 2018
- August 1, 2018
- October 3, 2018
