# ***LIVE CATTLE, DECEMBER 2018 CONTRACT***

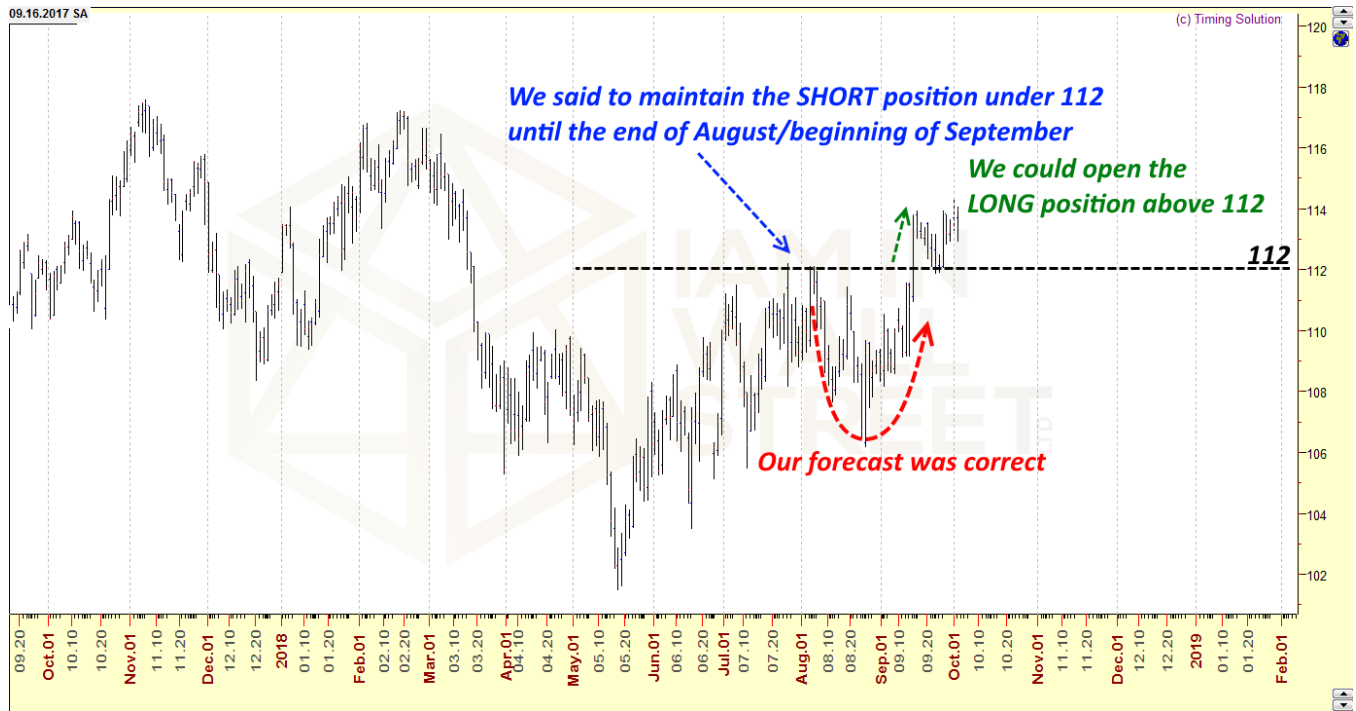

The Update of August was very good, the forecast worked correctly and we could make some profits under 112 until the end of August.

This is the chart with the forecast we issued in August 2:

And we said: ...maintain the **SHORT** position under area 112-113 (112 can be a good Key Level) until the end of August/beginning of September. In that time-window, we will try to open new **LONG** positions

The chart here below shows how the forecast worked correctly:

Now, we move to the December Contract:

Contract: December 2018

Exchange: GLOBEX

Symbol: LCZ18

Expiration Date: 31/12/2018

Notice Date: 10/12/2018

Multiplier: 400

**The forecast model is now expecting a down push from October, and for this reason, we have decided to close the entire LONG position and remain FLAT.**

## LIVE CATTLE FORECAST & STRATEGY STUDY

The Top can be already in, but we must be careful, because Live Cattle can remain up even until October 21 (more or less).

It is not easy to work with a precise price, for this reason, **please look at the chart here below, and you can see a few green lines:**

These lines are very significant, and **we should expect a downtrend under them**, using always STOPS above them (in case we want to open SHORT positions). Plus, we can also use the level 120 (but the descending line should be better, you do not need to know it precisely, just be aware of it), it can be a level of reference where to know if we can keep the SHORT position under it or use a STOP above it.

## LIVE CATTLE FORECAST & STRATEGY STUDY

Here, I want to show you another very important chart where you can see important supports and resistances. My Data Provider asked me if I wanted adjusted SPOT charts or not. The reply is in the next chart:

Not Adjusted! Otherwise, how do you work with the price? You can use these lines to follow the possible downtrend, which means you also have to use stop-loss orders if something goes wrong! **These lines help you to understand where to put stop-loss orders.**

This one was the last update of the year for the 2018 Live Cattle Bulletin, let's hope to be able to follow the next downtrend! Within one month, I should be able to publish the 2019 Bulletins. Let's keep in touch! If you are not a subscriber to our FREE Newsletters, you can do it at this link:
